

Technical Bulletin

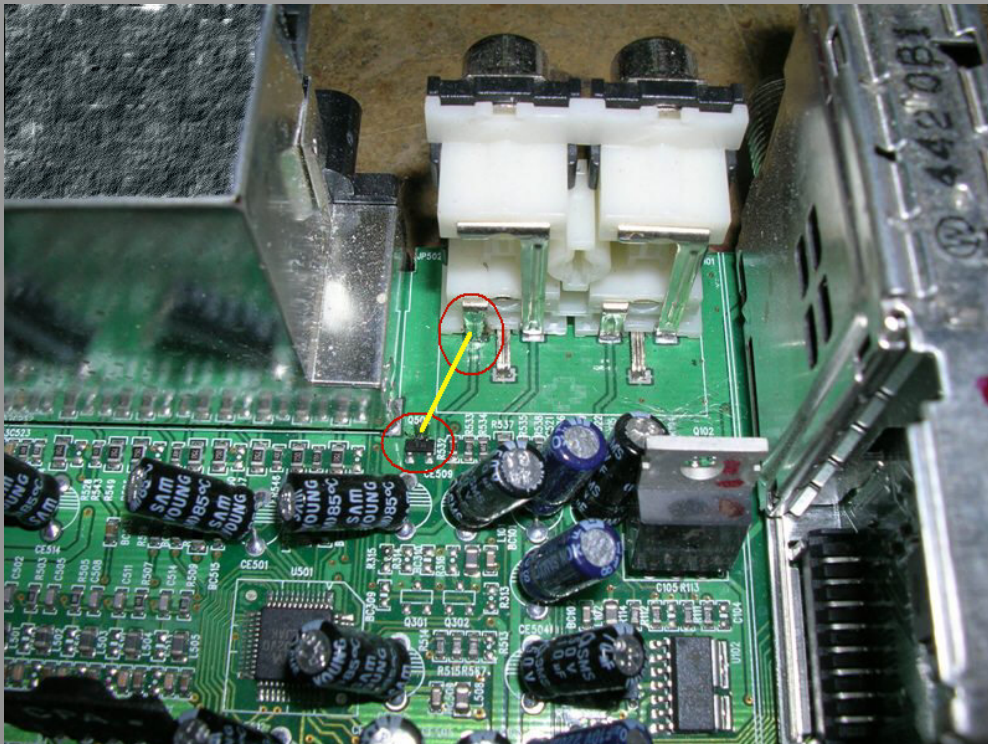

X-crypt External Dongle Support Modification.

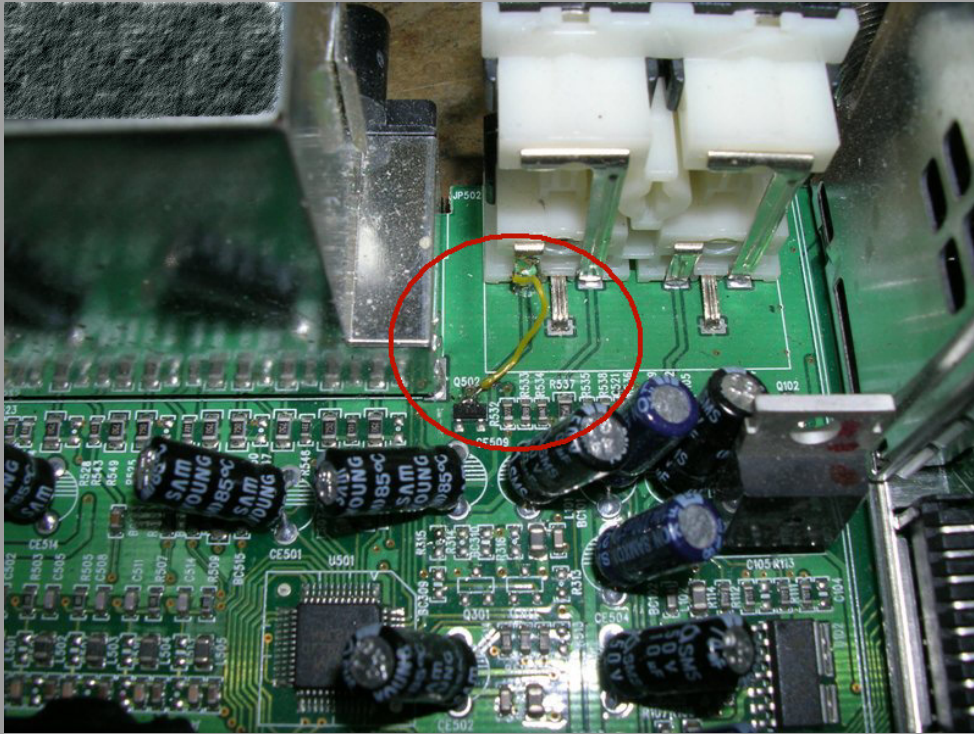

REASON

This technical bulletin is issued to inform you about how to install new generation Xcrypt Dongle without an external DC supply in AstroVox VSR-260 FTA Plus receiver... This Technical Bulletin provides complete hardware modification procedures that allows user to make use of a Dummy RCA Connector to provide DC to Xcrypt Module.

Identify the Soldering point (See image below)

Connect a Small Piece of jumper in between to marked points.

Connect Xcrypt Module to RCA Connector and check the LED

Note:- Visit www.astrovox.biz to download proper software to support Xcrypt Module.
